Subject: Half yearly EC Compliance Status of Environmental clearance for expansion of M/s Enviro Technology Limited Common Effluent Treatment Plant for the period **October 2021 – March 2022.**

Ref.:

1. Environmental Clearance No. 10-2/2008-IA-III dated 23rd July 2009.
2. Environmental Clearance No. 10-2/2008-IA-III dated 3rd July 2017.
3. Environmental Clearance No. 10-82/2018-IA-III dated 16th December 2019

Respected Sir,

ETL is operating a CETP consisting of primary, secondary, and tertiary treatment located at plot No 2413/14 GIDC estate, Ankleshwar-393002, Dist.Bharuch,Gujarat.

We have two EC's referred under 1&3 and an EC validity extension referred under 2. We would like to draw your kind attention on the following:

1. EC referred under 1&2 i.e., EC dated 2009 & its validity extension dated 2017; we have not implemented any expansion as per this EC due to moratorium imposed on the critically polluted area which included Ankleshwar, and the validity of this EC is over on 22.07.2019. Non-implementation of this project is also mentioned in our EC dated 16.12.2019. Therefore, as the validity of this over, compliance report of this EC is not submitted.
2. EC dated 16.12.2019, referred under 3 for expansion (from 1.8 MLD to 3.5 MLD effluent) with modification is also not yet implemented. We have obtained a CTE from GPCB on 22.04.20 but due to Pandemic Covid-19, the project was delayed. Currently construction work for the said project is going on.

We have not implemented EC 10-82/2018-IA-III dated 2019, but with this we are submitting its current compliance status along with all the required documents.

Kindly note that, ETL is currently operating on effluent inlet of 2.2 MLD as per its CCA amendment no.113210 dated 07.08.21.

CIN NO. : U72200GJ1994PLC023786

Works Office : 2413/2414 & 2211, GIDC Estate, Ankleshwar - 393 002 Dist. : Bharuch (Gujarat)
Phone : (02646) 223569, 252768, 250707

Reg. Office : 9701-16, GIDC Estate, Ankleshwar - 393 002 Dist. : Bharuch (Gujarat)

ENVIRO TECHNOLOGY LIMITED

ETL inlet and discharge quantities for the said period are as below which are within limits as per CCA dated 07.08.21:

Period	Average Inlet effluent (MLD)	Average Sewage (MLD)	Average Discharge Quantity along with sewage (MLD)
1 st October 2021 to 31 st March 2022	1.356	0.731	2.311
Capacity as per CCA-113210 dated 07.08.21	2.2	1.1	3.5

We would like to bring to your kind attention that the treated effluent is discharged to FETP operated by NCT for further treatment and disposal to deep sea.

Thanking you,
Yours faithfully,
For Enviro Technology Limited

A. M. Darji
Unit Head

C.C: (1) Gujarat Pollution Control Board
Ankleshwar

Compliance Status for the period of October'21 - March'22 of Environment clearance to M/s Enviro Technology Limited for proposed expansion with modification of existing Common Effluent Treatment Plant at Ankleshwar within the existing premises at plot no 2413/14, Notified G.I.D.C. Estate, Ankleshwar. In category B- 7(h) of schedule with EIA notification, 2006.

Note: We have received NOC on dated 22.04.2020 but due to Pandemic Covid-19, the project was delayed. Currently construction work for the said project is going on. (from 1.8 MLD to 3.5 MLD industrial effluent)

Environmental Clearance No. 10-82/2018-IA-III dated 16th December 2019

1. This has reference to your online proposal No. INGJ/MIS/84597/2018 dated 9th April 2019, submitted to this Ministry for grant of Environmental Clearance (EC) in terms of the provisions of the Environment Impact Assessment (EIA) Notification, 2006 under the Environment (Protection) Act, 1986. :

Noted

2. The proposal for grant of environmental clearance to the project Proposed expansion with modification of existing Common Effluent Treatment Plant at Ankleshwar within the existing premises by M/s Enviro Technology Limited, was considered by the Expert Appraisal Committee (Infra-2) in its 41st meeting held during 27-29 May, 2019 and 42nd meeting held during 10-12 July, 2019. The details of the project, as per the documents submitted by the project proponent, and also as informed during the above meeting are as under:

- (i) M/s Enviro Technology Ltd. is the operator of existing CETP (capacity 2.2 MLD effluent with sewage of 1.7 MLD), since 1996 at plot No 2413/14 GIDC Notified Industrial Estate Ankleshwar. Raw Effluent from more than 250-member industries such as dyes, intermediate, pigment, chemicals, textile, pharmaceuticals etc. that are flourishing in and around Ankleshwar industrial estate is collected in tankers and treated at CETP having Primary, Secondary and Tertiary Treatment facilities. Treated effluent from CETP is being discharged through GIDC drain into Final Effluent Treatment Plant (FETP) operated by M/s. Narmada Clean Technology Ltd. (NCT), Ankleshwar for further treatment and disposal to deep sea. The plant is in operation with valid Consent to Operate & Authorization valid up to 18.03.2024.:

Noted

- (ii) The Enviro Technology Limited had obtained Environment Clearance (EC) vide letter No.10 2/2008-IA.III dated 23.07.2009 for proposed capacity enhancement of Common Effluent Treatment Plant (CETP) for treatment of industrial effluent from 1.8 to 3.5 MLD. The Validity of Environmental Clearance (EC) for expansion was extended up to 22.07.2019 vide Letter No 10-2/2008-IA. III dated 03.07.2017 for treatment of 3500 m³/day industrial wastewaters and use of 1445 m³/day GIDC water. Consequent to notification of Moratorium imposed on Critically Polluted Areas which included Ankleshwar Industrial Estate vide OM No. J-11013/5/2010-IA. 11 (1) on 13.01.2010, there has been no expansion and no new industries came up as a result there has been no increase in effluent quantity. Accordingly, ETL did not expand the capacity of CETP and continued to operate on existing capacity of 2.2 MLD of raw effluent as earlier. In the year 2016, the Moratorium has been lifted for Ankleshwar Vide Letter No. J-11013/5/2010-1A. II (A) dated 25.11.2016 based on CEPI index.: **Noted**

- (iii) M/s ETL proposes expansion from 1.8 to 3.5 MLD industrial effluent with modification in the treatment technology plans to utilize the modified quantity sewage mixed with industrial wastewater and fresh water used for chemical dosing & other uses as detailed below:

Sr. No.	Particular	Existing (MLD)	Proposed (MLD)
1.	Industrial Effluent from Member Industries (including 600 m3/day of effluent stream of high Ammoniacal Nitrogen)	1.8	3.5
2.	Sewage	1.7	1.7
3.	Fresh/Raw Water	0.725	0.465
4.	Quantity of discharge of Effluent from CETP	3.5	5.548

Noted

- (iv) Treated effluent from ETL is discharged to GIDC Drainage system which goes to FETP of NCTL (Narmada Clean Technology Ltd) along with effluent from other industries, for further treatment and disposal up to deep sea through closed pipeline system. ETL has also obtained membership for discharge of additional quantity of effluent after proposed expansion:

Noted

- (v) The hazardous wastes generated from different process are listed below & shall be disposed according to Hazardous waste management handling rule.

Hazardous Waste / quantity per year	Source	Mode of disposal
ETP Sludge/36500 MT	ETP	BEIL, TSDF site
Used oil/1.8 MT	lubrication of equipment, DG set	Sold to approved recycler
Discarded Container/ 730 Nos.	Raw material packing container	Sold to authorized dealers
Spent Carbon from Tertiary Treatment / 54 MT	Filters	BEIL, TSDF site

Noted

- (vi) As per the EIA Notification, 2006 [as amended], the Common Effluent Treatment Units (CETP) units listed at Serial no. 7 (h) of the Schedule of EIA Notification of categorized under Category However due to location of the existing CETP in the Critically Polluted Area the project has been categorized as "A" category.:

Noted

- (vii) Salient Features of the Project are:

Sr.no.	Parameters	Description
1.	Proposed plant capacity	Industrial wastewater: 3500 m ³ /day (including 600 m ³ /day of effluent stream of high ammonical nitrogen). Sewage: 1700 m ³ /day Raw water: 465 m ³ /day Total Influent: 5625 m ³ /day Total Discharge: 5548 m ³ /day
2.	Existing plant capacity	Effluent: 1800 m ³ /day Sewage: 1700 m ³ /day Raw water: 725 m ³ /day Total Discharge: 3500 m ³ /day (as per valid consent of GPCB)
3.	Plot Area	26543.79 sqm
4.	Location	Notified Industrial Area, Ankleshwar, Gujarat
	Coordinates	Latitude: 21°03'11.03"N Longitude: 73°01'38.52"E
5.	Source of Water	GIDC water supply
6.	Electricity /Power requirement	600 KVA Existing & 600 KVA Proposed. In case of power failure D.G. Set (2*1010 KVA Capacity) will be used.

Noted

- (viii) ToR was approved by MoEF & CC (EAC), New Delhi vide letter F.No. 10 82/2018-IA- III dated 13.12.2018.:

Noted

- (ix) Baseline monitoring of UPL-1 is also collected by us during from 8th March 2018 to 3rd June,2018 and same was revalidated for one month during 17th December 2018 to 15th January 2019.:

Noted

(x) Public hearing was exempted as the project area falls under notified Industrial zone of Ankleshwar.:

Noted

(xi) Investment Cost of the project is approx. Rs. 19.35 Crores.:

Noted

(xii) Benefits of the project: The proposed CETP shall help in the economical treatment of industrial effluent from small scale industries. Thereby, improving the surrounding environment. Increase in direct/indirect employment opportunities thereby improving overall socio-economic condition.:

Noted

(xiii) Employment potential: During operation phase, total no of employee would be around 50.:

Noted

3. The project/activity is covered under category 'B' of item 7 ('Common Effluent Treatment plants (CETPs)' of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to applicability of general condition i.e. project location in Critically Polluted Area, Ankleshwar, the proposal has been appraised at Central Level.:

Noted

4. The proposal was considered by EAC (Infra-2) in its 41st meeting held during 27-29 May 2019 and 42nd meeting held during 10-12 July 2019. The EAC during its meeting deliberated on the certified compliance report letter No. 5-283/2009(ENV)/161 dated 7.3.2019 issued by the MoEF&CC Regional Office Bhopal. As per Compliance report out of total 32 conditions, 7 are fully complied, 02 are compiled subject to condition, 4 are in which compliance are not applicable to the project proponent, 15 are agreed to comply and 4 are noted. As per the compliance report, the project proponent i.e. M/s Enviro Technology Limited had received 12 show-cause notices and 02 Directions for closure in past 3 years. All of which have been complied. No closure notice received in the past three years.:

Noted

5. The EAC, based on the information submitted and clarifications provided by the Project Proponent and detailed discussions held on all the issues, recommended for grant of Environmental Clearance to the project with stipulated specific conditions along with other Standard EC Conditions as specified by the Ministry vide OM dated 4th January 2019 for the said project/activity, while considering for accord of environmental clearance. As per recommendations of the EAC, the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project Proposed expansion with modification of existing Common Effluent Treatment Plant at Ankleshwar within the existing premises by M/s Enviro Technology Limited, under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the specific and general conditions as under:-

Noted

A. SPECIFIC CONDITION:

Sr. No	Description	Status
I.	The project proponents will implement the project only after getting consent to establish from the SPCB.	Complied We have received CTE from SPCB on 22.04.20, but due to Pandemic Covid -19, we have not implemented the project. Currently we have started construction work.
II	It shall be ensured that primary treatment of effluents to the level of influent quality standards as prescribed by the board, is ascertained at the member units.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
III.	Member shall only be allowed access to the CETP if they have consent from the SPCB.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
IV.	A dedicated access-controlled conveyance system shall be provided for transporting effluents from the member units of CETP.	Shall be Complied Conveyance of effluent is through dedicated tankers controlled by ETL. This system is followed presently, and we shall ensure compliance after project implementation.
V.	Conformance to the influent and effluent standards shall be the responsibilities of CETP.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of the project.
VI.	The design of the CETP should be as approved by PCB.	Noted We submit the layout and procedure of CETP to PCB when taking permissions like CTE & CTO.
VII.	There shall be flow meters at inlet and outlet of CETP to monitor the flow. Suitable meters shall be provided to measure the quantity of effluent received, quantity of effluent recycled/reused and discharged.	Complied Effluent is received in tankers and the details are maintained. At outlet, we have a flow meter installed and readings noted. Based on this the quantities of inlet and outlet are measured. Same system or other adequate system shall be adopted on implementation of the project. Details of effluent received, and effluent discharged currently are attached below.

		<table border="1"> <thead> <tr> <th>Month</th> <th>Average Inlet Effluent (MLD) (2.2 MLD Industrial Effluent)</th> <th>Final Discharge Quantity Along with 1.1 MLD sewage (Avg. MLD)</th> </tr> </thead> <tbody> <tr> <td>Oct.-21</td> <td>1.482</td> <td>2.457</td> </tr> <tr> <td>Nov.-21</td> <td>1.154</td> <td>2.180</td> </tr> <tr> <td>Dec.-21</td> <td>1.324</td> <td>2.278</td> </tr> <tr> <td>Jan.-22</td> <td>1.409</td> <td>2.384</td> </tr> <tr> <td>Feb.-22</td> <td>1.361</td> <td>2.244</td> </tr> <tr> <td>Mar.-22</td> <td>1.407</td> <td>2.326</td> </tr> </tbody> </table>	Month	Average Inlet Effluent (MLD) (2.2 MLD Industrial Effluent)	Final Discharge Quantity Along with 1.1 MLD sewage (Avg. VIII.	<p>The units and the CETP shall maintain daily logbook of the quantity and quality of discharge from units, quantity of inflow into the CETP, details of the treatment at each stage of the CETP including the raw materials used, quantity of the treatment water sent back to the units, quantity of the salts extracted from the treatment process and detail of the selling of such salts. All the above information shall be provided on the line of the website exclusive prepared from the purpose by the CETP owner. The website shall be accessible by the public. The financial and energy details of the CETP will also be provided along with details of the workers of the CETP</p>	<p>Shall be Complied</p> <p>For existing operation of 2.2 MLD ETL is maintaining details for the following</p> <ul style="list-style-type: none"> - quantity and quality of discharge of Effluent - Record of Inflow to CETP - Details of treatment at each stage - Record of raw materials used. <p>It may be noted that ETL is not sending back treated water to member units and is also not extracting salt.</p> <p>EC compliance report comprising the above information is uploaded on the website.</p> <p>We will also follow the same for proposed 3.5 MLD industrial effluent operation.</p> <p>(We must comply with energy details, financials, etc.)</p>																					
IX.	<p>Periodical monitoring shall be carried out for the functioning of CETP and outlet parameters.</p>	<p>Shall be Complied</p> <p>For the existing system of 2.2 MLD effluent:</p> <ol style="list-style-type: none"> a) Effluent characteristic at each stage of CETP are regularly monitored in-house to ensure proper functioning of the CETP. b) Outlet parameters are also monitored regularly in-house and by a third party monthly. 																					

		Average of In-house Final Discharge Quality for 2.2 MLD							
		Month	Oct-21	Nov-21	Dec-21	Jan-22	Feb-22	Mar-22	GPCB Permissible Limits
		pH	7.6	7.61	7.64	7.66	7.67	7.56	6.5 to 8.5
		COD	905	879	947	951	986	949	1000 mg/L
		BOD	11	10	8	10	12	6	200 mg/L
		TSS	55	54	53	53	56	55	150 mg/L
		NH4-N	44	45	41	37	44	47	50 mg/L
		<p>“Monthly third-party monitoring data for 2.2 MLD effluent”</p> <p>Internal monitoring & third-party monitoring shall be carried on implementation of the project.</p> <p>Third party monitoring reports for existing system are attached as Annexure – 1(A).</p>							
X.	The MOU between CETP and member units shall indicate the maximum quantity of effluent to be sent to the CETP along with the quality.	<p>Shall be Complied</p> <p>This procedure is being followed for the existing system and shall be complied in the future also.</p>							
XI.	Individual members to the CETP shall treat their effluents in primary treatment systems to the inlet quality standards of the CETP as prescribed by the SPCB.	<p>Member industries are giving primary treatment.</p>							
XII.	Individual members shall segregate their wastes in to concentrated and diluted streams and also as per the nature of chemical contamination and store them as per conditions to be specifically imposed in this regard by the SPCB.	<p>Segregation of effluent is done by industries. High Ammonia streams are sent separately for MAP treatment</p>							
XIII.	Chemical recovery and reuse, either in-house or outside shall be practiced to the satisfaction of the SPCB. Use in agriculture shall be exercised with caution after getting the irrigation management plan approved by the SPCB.	<p>Noted</p>							

XIV.	All tankers carrying untreated wastes and all hazardous and other wastes shall be properly labeled and transported as per the hazardous and other wastes rules 2016.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
XV.	The detailed design of the various unit operation shall strictly conform to the directions of the SPCB as given in the CTE.	Shall be Complied
XVI.	The project proponent and SPCB should ensure that the membership of CETP is restricted to only those industries which legitimately exist in the area. A list of industries in this regard shall be prepared by the association which will have the following details. <ul style="list-style-type: none"> • Name of industry • Office address • Location of industry • Status of consent under water act along with order number. • Status of consent under air act along with order number. • Production capacity as per consent orders. Total industrial effluent to CETP as per consent order.	Noted Before giving membership to any industry, we take their CTE issued by GPCB.
XVII	The unit shall inform the SPCB at least a week prior to undertaking maintenance activities in the recycle system and store/dispose treated effluents under their advice in the matter.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
XVIII	The unit shall also immediately inform the PCB of any breakdown in the recycling system, store the effluents in the interim period and dispose effluents only as advised by the PCB.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
XIX	The unit shall maintain a robust system of conveyance for primary treated effluents from the member	Shall be Complied

	units and constantly monitor the influent quality to the CETP. The management of the CETP and the individual member shall be jointly and severally responsible for conveyance and pretreatment of effluents. Only those units will be authorized to send their effluents to the CETP which have a valid consent of the PCB and which meet the primary treated standards as prescribed. The CETP operator shall with the consent of the SPCB retain the powers to delink the defaulter unit from entering the conveyance system.	The effluent is conveyed to CETP through dedicated tankers of CETP. We are complying the same for existing operation (i.e., 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
XX	The CETP operator will maintain an annual register of member units which will contain the details of products with installed capacities and quality of effluents accepted for discharge. This will form a part of the initial and renewal applications for CTO to be made before the SPCB.	Noted
XXI	Any changes in the manufacturing process, installed capacity or the quality or quantity of effluents as agreed upon in the initial MOU between the operator and the member units, will only be done after an approval of the SPCB.	Noted and Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.
XXII	The treated effluent from CETP shall be blended with treated sewage prior to its discharge in river.	Not Applicable In our existing as well as proposed system for 3.5 MLD effluent, sewage is mixed with effluent before the effluent enters biological (secondary) treatment process. The treated effluent is not blended with treated sewage. Also, our discharge is to FETP and not in river.
XXIII	Domestic water requirement is 0.675 KLD, which will be met through water tanker supply.	Shall be Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.

		In case of non-availability of water from GIDC, water from borewell is drawn. NOC from CGWA for withdrawal of ground water is received.																
XXIV	The quantity of hazardous waste i.e. ETP sludge to be generated from CETP facility shall be handled and disposed to nearby authorized TSDF site as per HWM Rules, 2016.	<p>Shall be Complied</p> <p>Unit is disposing sludge to Common TSDF –BEIL for their existing operation and will comply the same for proposed operation after implementation. Sludge disposal quantity for existing facility is under: (Apr.'2021 to Sep'2021). Noted for compliance as the 1.8 to 3.5 MLD effluent project is not yet implemented</p> <table border="1"> <thead> <tr> <th>Month</th> <th>Sludge Quantity (MT)</th> <th>Consented Qty. in MT/Year</th> </tr> </thead> <tbody> <tr> <td>Oct.-21</td> <td>396.29</td> <td rowspan="6">36500</td> </tr> <tr> <td>Nov.-21</td> <td>367.06</td> </tr> <tr> <td>Dec.-21</td> <td>440.55</td> </tr> <tr> <td>Jan.-22</td> <td>582.66</td> </tr> <tr> <td>Feb.-22</td> <td>536.29</td> </tr> <tr> <td>March-22</td> <td>646.08</td> </tr> </tbody> </table> <p>Membership certificate of BEIL to send sludge attached as Annexure -1(B)</p>	Month	Sludge Quantity (MT)	Consented Qty. in MT/Year	Oct.-21	396.29	36500	Nov.-21	367.06	Dec.-21	440.55	Jan.-22	582.66	Feb.-22	536.29	March-22	646.08
Month	Sludge Quantity (MT)	Consented Qty. in MT/Year																
Oct.-21	396.29	36500																
Nov.-21	367.06																	
Dec.-21	440.55																	
Jan.-22	582.66																	
Feb.-22	536.29																	
March-22	646.08																	
XXV	Non-hazardous solid wastes and sludges arising out of the operation of the CETP shall be adequately disposed as per the consent to be availed from the SPCB. Non-hazardous solid wastes and sludges shall not be mixed with hazardous waste.	<p>Complied</p> <p>We are complying the same for existing operation (i.e., 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>																
XXVI	The effluent from member units shall be transported through pipeline. In case the effluent is transported through road, it shall be transported through CETP tankers only duly maintaining proper manifest system. The vehicle shall be fitted with proper GPS system.	<p>Shall be Complied</p> <p>Currently also the effluent is transported through road by CETP tankers fitted with GPS and proper manifest system.</p>																
XXVII	Before accepting any effluent from member units, the same shall be as permitted by the SPCB in the consent order. No effluent from any unit shall be accepted without consent from SPCB under the water Act, 1974 as amended.	<p>Shall be Complied</p> <p>We are complying the same for existing operation (i.e., 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>																

XXVIII	The CETP shall have adequate power back up facility, to meet the energy requirement in case of power failure from the grid.	<p>Shall be Complied</p> <p>For existing operation, as power back ETL has installed D G Set of 1010 KVA for smooth operation during power failure. After implementation of the project an additional DG set of 1010 KVA shall be installed to meet the energy requirement in case of power failure.</p>																								
XXIX	All the recommendation of the EMP shall be complied with letter and spirit. All the mitigation measures submitted in the EIA report shall be prepared in a matrix format and the compliance for each mitigation plan shall be submitted to RO, MOEF and CC along with half yearly compliance report.	Shall be Complied																								
XXX	The project proponent shall set up separate environmental management cell for effective implementation of the stipulated environment safeguards under the supervision of a senior executive.	<p>Complied</p> <p>Details are as under:</p> <table border="1" data-bbox="762 1093 1506 1554"> <thead> <tr> <th data-bbox="762 1093 842 1182">Sr. No.</th> <th data-bbox="842 1093 1102 1182">Name of the employee</th> <th data-bbox="1102 1093 1294 1182">Designation</th> <th data-bbox="1294 1093 1506 1182">Educational Qualification</th> </tr> </thead> <tbody> <tr> <td data-bbox="762 1182 842 1227">1.</td> <td data-bbox="842 1182 1102 1227">Mr. B. XXXI	The funds earmarked for environment management plan shall be included in the budget and this shall not be diverted for any other purposes.	<p>Noted</p> <p>Approximately 2.0 lakhs at construction stage & 2.80 lakhs /annum at operational stage.</p> <p>Our unit is a CETP and hence all the expenditure is for the purpose of environment protection measures.</p>																								
XXXII	Project proponent should develop green belt all along the periphery of the site with native plant species that	<p>Complied</p> <p>There is no addition of land for the proposed capacity.</p>																								

	are significant and used for the pollution abatement.	
XXXIII	The company shall draw up and implement corporate social responsibility plan as per the company act of 2013.	Shall be Complied For the existing system, the company performs CSR as per the company act and after implementation of the project also the same shall be complied.
XXXIV	As per the ministry's office memorandum F No. 22-65/2017-IA.III dated 1 st May 2018, and proposed by the project proponent, an amount of Rs. 19.35 Lakhs @ 1.0% of project cost shall be earmarked under corporate environment responsibility for the activities such as health, education, employability, and environment etc. the activities proposed under CER shall be restricted to the affected area around the project. The entire activities proposed under the CER shall be treated as project and shall be monitored. The monitoring report shall be submitted to the RO as a part of half yearly compliance report, and to the district collector. It should be posted on the website of the project proponent.	Shall be complied.
XXXV	The project proponent shall also comply with the mechanism prescribed by the ministry vide letter No. Q*-16017/38/2018-CPA dated 24.10.2019 and O.M. F. No.22-23/2018-IA.III(pt.) dated 31.10.2019 for the instant project.	Noted

B. STANDARD CONDITION:
Statutory compliance:

I.	The project proponent shall obtain forest clearance under the provisions of forest act,1980, in case of the diversion of forest land for non-forest purpose involved in the project.	Not Applicable
II.	The project proponent shall obtain clearance from the national board for wildlife, if applicable.	Not Applicable
III.	The project proponent shall prepare a site-specific conservation plan and wildlife management plan and approved by the chief wildlife warden. The recommendations of the approved site-specific conservation plan/wildlife management plan shall be implemented in consultation with the state forest department. The implementation report shall be furnished along with the six-monthly compliance report.	Not Applicable
IV.	The project proponent shall obtain CTE/CTO under the provision of air act,1981 and the water act,1974 from the concerned SPCB.	Shall be complied. We have obtained CTE from SPCB. CTO shall be obtained on implementation of the project.
V.	The project proponent shall obtain the necessary permission from the central ground water authority, in case of drawl of ground water/from the competent authority concerned in case of drawl of surface water required for the project.	Complied Currently, no ground water is utilized at site, water supply is from GIDC Notified Area Authority. Ground water is utilized only when GIDC cannot supply required water.
VI.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	Shall be complied. Power certificate for existing facility obtained and for proposed project, we shall obtain it. Existing Certificate attached as Annexure-1(C)
VII.	All other statutory clearances such as the approvals for storage of diesel from chief controller of explosives, fire department, etc. shall be obtained, as applicable by project proponent from the respective competent authority.	Not applicable No such clearances are required for our CETP, but if required in future, it shall be obtained.

I. Air quality monitoring and preservation:

I	The gaseous emission from DG set shall be dispersed through adequate stack height as per CPCB standards. Diesel generating sets shall be installed, in the downwind direction.	Complied
II	Appropriate air pollution control system shall be provided for fugitive dust from all vulnerable sources, so as to comply prescribed standards.	Noted

II. Water quality monitoring and preservation:

I	The project proponent shall install 24*7 continuous effluent monitoring system with respect to standards prescribed in environment rules 1986 as amended from time to time and connected to SPCB and CPCB online server and calibrate these system from time to time according to equipment supplier specification through labs recognized under environment act,1986 or NABL accredited laboratories.	Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and wi comply the same after implementation of 3.5 MLD industrial effluent project.
II	Total freshwater use shall not exceed the proposed requirement as provided in the	Shall be complied. We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and wi comply the same after implementation of 3.5 MLD industrial effluent project.

	<p>project details. Prior permission from competent authority shall be obtained for use of fresh water.</p>																						
<p>III</p>	<p>There shall be flow meters at inlet and outlet of CETP to monitor the flow. Suitable meters shall be provided to measure the quantity of effluent received. Quantity of effluent recycled/reused and discharged.</p>	<p>Complied</p> <p>Effluent is brought to CETP through tankers and these data are maintained. Flow meter is installed at the outlet.</p> <p>Details of effluent received in tankers and effluent discharged are attached below.</p> <table border="1" data-bbox="475 660 1244 996"> <thead> <tr> <th>Month</th> <th>Average Inlet Effluent (MLD) (2.2 MLD Industrial Effluent)</th> <th>Final Discharge Quantity Along with 1.1 MLD sewage (Avg. V

The CETP operator will maintain an annual register of member units which will contain the details of products with installed capacities and quality and quantity of effluents accepted for discharged. This will form a part of the initial and renewal

Noted

	applications for consent to operate to be made before the SPCB.	
VI	No changes in installed capacity, quantity or quality of effluents as agreed upon in the initial MOU between the operator and the member units, addition of any new member units shall be carried without prior approval of ministry.	Noted
VII	The unit shall inform the SPCB at least a week prior to undertaking maintenance activities in the recycle system and store treated effluents under their advice in the matter.	<p>Shall be complied.</p> <p>We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>
VIII	The unit shall also immediately inform the PCB of any breakdown in the recycling system, store the effluents in the interim period and dispose effluents only as advised by the PCB.	<p>Shall be complied.</p> <p>We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>

IX	<p>The MOU between CETP and member units shall indicate the maximum quantity of effluent to be sent to the CETP along with the quality.</p>	<p>Complied</p> <p>We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>
X	<p>The unit shall maintain a robust system of conveyance for primary treated effluents from the member units and constantly monitor the influent quality to the CETP. The management of the CETP and the individual member shall be jointly and severally responsible for conveyance and pre-treatment of effluents to the CETP which have a valid consent of the PCB and which meet the primary treated standards as prescribed. the CETP operator shall with the consent of the SPCB retain the powers to delink the defaulter unit from entering the</p>	<p>Noted</p>

	conveyance system.	
XI	The effluent from member units shall be transported through pipeline. In case the effluent is transported through road, it shall be transported through CETP tankers only duly maintaining proper manifest system. The vehicles shall be fitted with proper GPS system.	<p>Shall be Complied</p> <p>Currently also the effluent is transported through road by CETP tankers fitted with GPS and proper manifest system.</p>
XII	Before accepting any effluent from member units, the same shall be as permitted by the SPCB in the consent order. No effluent from any unit shall be accepted without consent from SPCB under the Water Act, 1974 as amended.	<p>Shall be Complied</p> <p>We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>
XIII	Treated water shall be disposed on land for irrigation. An irrigation management plan shall be drawn up in consultation with and to the	Not Applicable

	satisfaction of the SPCB.	
XIV	The project proponents will build operate and maintain the collection and conveyance system to transport effluents from the industrial units in consultation with and to the satisfaction of the SPCB and ensure that the industrial units meet the primary effluent standards prescribed by the SPCB.	Complied The conveyance of transporting effluent from member units to CETP is done through tanker which is agreed by SPCB.
XV	The SPCB will also evaluate the treatment efficiency of the effluent treatment plant and its capability of meeting the prescribed standards. The final scheme of treatment would be such as is approved by the PCB in the CTE.	Not Applicable. Applicable to SPCB.
XVI	The project proponents will create an institutional arrangement for the involvement of individual members in the	Noted. In the board of Directors of company, two representatives are included.

	management of the CETP.

		Membership certificate of BEIL to send sludge attached as Annexure -1(B)																
II	Non-hazardous solid wastes and sludge arising out of the operation of the CETP shall be adequately disposed as per the consent to be availed from the state pollution control board. Non-hazardous	Complied We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.																

	solid waste and sludge shall not be mixed with hazardous wastes.	
III	The CETP shall have adequate power back up facility, to meet the energy requirement in case of power failure from the grid.	<p>Shall be Complied</p> <p>For existing operation, as power back ETL has installed D G Set of 1010 KVA for smooth operation during power failure. After implementation of the project an additional DG set of 1010 KVA shall be installed to meet the energy requirement in case of power failure.</p>
IV	The site for aerobic composting shall be selected and developed in consultation with and to the satisfaction of the SPCB. Odor and inspect nuisance shall be adequately controlled.	Not applicable
V	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the construction and demolition waste, management rules,2016.	Noted
VI	The solid wastes shall be segregated, managed, and disposed as per the norms of the solid waste management rules,2016.	Noted

V. Energy conservation measures:

I	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, streetlights, parking around project area and maintain the same regularly.	<p>Noted</p> <p>We are working out the viability.</p>
II	Provide LED lights in their offices and residential areas.	<p>Complied</p> <p>We are complying the same for existing operation (i.e. 2.2 MLD industrial effluent) and will comply the same after implementation of 3.5 MLD industrial effluent project.</p>

VI. Green belt:

I	Green belt shall be developed in area as provided in project details, with native tree green belt shall be developed in an area equal to 33% of the plant area with a native tree species in accordance with CPCB guidelines. The greenbelt shall inter alia cover the entire periphery of the plant.	Shall be complied. There is no increase in land area for the proposed 3.5 MLD project, therefore green belt will remain the same. Currently 18% is the green belt area. Plant Layout attached as Annexure-1(D)
---	---	---

VIII. Public hearing and human health issues:

I	Emergency preparedness plan based on the hazard identification and risk assessment and disaster management plan shall be implemented.	Noted
II	Adequate infrastructure, including power, shall be provided for emergency situations and disaster management.	Complied Adequate firefighting system is installed at site For existing operation, as power back ETL has installed D G Set of 1010 KVA for smooth operation during power failure. After implementation of the project an additional DG set of 1010 KVA shall be installed to meet the energy requirement in case of power failure.
III	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. the housing may be in the form of temporary structures to be removed after the completion of the project.	Noted
IV	Occupational health surveillance of the workers shall be done on a regular basis.	Complied Health surveillance of workers is carried out six monthly.

IX. Corporate Environment Responsibility:

I	The company shall have a well laid down environmental policy duly approved by the board of directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/forest/wildlife norms/condition. The company shall have defined system of reporting infringements/deviation/violation of the environmental/forest/wildlife norms/conditions and/or shareholders/stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	Shall be complied.
II	A separate Environmental cell both at the project and company head quarter level with qualified personal shall be set up under the control of senior executive, who will directly to the head of the organization.	Complied
III	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the ministry/regional office along with six monthly compliance report.	Noted for compliance. Our unit is a CETP and hence all the expenditure is for the purpose of environment protection measures.
IV	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.	Complied. An environment audit is carried out by a third party every year. The third party (Schedule – I) auditors are appointed by GPCB.

X. Miscellaneous:

II	The project proponent shall prominently advertise it at least in two local newspapers of the district or state, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEF&CC/SEIAA website where it is displayed.	Complied Having received the EC on 26 th December, we have advertised in two local newspaper (Times of India and Divya Bhaskar) on date 01 st January 2020 & 31 st December 2019 informing that the “project has been accorded EC”. Copy is attached as Annexure - 1 (E)
----	--	--

III	The copies of the environmental clearance shall be submitted by the project proponents to the heads of local bodies, panchayats and municipal bodies in addition to the relevant offices of the government who in turn has to display the same for 30 days from the date of receipts.	Complied We have submitted the copy of EC to concerned panchayat, Zilla Parisad/municipal Corporation, Urban Local body, and the local NGO Acknowledgement sheet attached as Annexure-1 (F)
III	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half yearly basis.	Shall be complied.
IV	The project proponent shall submit six-monthly reports on the status of the compliance of stipulated environmental conditions on the website of the ministry of Environmental, Forest and Climate change at environmental clearance portal.	Complied
V	The project proponent shall submit the environmental statement for each financial year in Form-5 to the concerned state pollution control board as prescribed under the environment rules, 1986, as amended subsequently and put on the website of the company.	Complied Copy of Environmental statement for the year of 2020-21 is attached as Annexure – (G)
VI	The criteria pollutant levels or critical sectoral parameters indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	We are displaying information outside gate
VII	The project proponent shall inform the Regional office as well as the ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of operation by the project.	Shall be complied.
VIII	The project authorities must strictly adhere to the stipulations made by the state pollution control board and the state government.	Noted
IX	The project proponent shall abide by all commitments and recommendations made in the EIA/EMP report, commitment made during public hearing and also that during their presentation to the expert appraisal committee.	Noted
X	No further expansion or modifications in the plant shall be carried out without prior approval of the ministry of environment, forest, and climate change.	Noted

XI	Concealing factual data or submission of false/fabricated data may result in revocation of this environment clearance and attract under the provisions of environment act 1986.	Noted
XII	The ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted
XIII	The ministry reserves the right to stipulate additional conditions if found necessary. The company in a time bound manner shall implement these conditions.	Noted
XI V	The regional office of the ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer of the regional office by furnishing the requisite data/information/monitoring reports.	Noted
XV	The above conditions shall be enforced, inter-alia under the provisions of the water(prevention & control of pollution) Act, 1974, the Air (prevention & control of pollution) Act, 1981, the Environment (protection) Act, 1986, Hazardous and other wastes (Management and transboundary movement)Rules, 2016 and the public liability insurance Act,1991 along with their amendments and rules and any other order passed by the Hon'ble supreme Court of India/High courts and any other court of Law relating the subject matter.	Noted
XVI	Any appeal against this EC shall lie with the national green tribunal, if preferred within a period of 30 days as prescribed under section 16 of the national green tribunal act 2010.	Noted

6. This issues with the approval of the Competent authority. - Noted

Sub: - Release of additional power of 125 KVA to raise your contract demand from 475 KVA to 600 KVA at GIDC, Ankleshwar - HT NO. 39564.
Ref: - (1) Estimate No: DGVCL/TECH-3/BRH/Addl-29/ 11749 Dtd. 27/02/06
(2) Agreement execution Date: - 23/03/06.

Dear Sir,

With reference to the above, this is to inform you that it is agreed to release additional load of 125 KVA during day and night hours in addition to existing load of 475 KVA presently drawn, raising your contract demand from 475 KVA to 600 KVA. Out of total contract demand of 600 KVA you are permitted to utilize 600 KVA only during day and night hours. The above load is released on contingent basis i.e. withdrawable at any time without giving any notice if the power position so warrants. This is subject to power cut in force from time to time.

You may please contact of E.E., Ankleshwar-Ind Dn. who will arrange to release supply as soon as he is ready on his side.

From the date of release of additional power you will be billed on the basis of increased contract demand of 600 KVA on tariff HTP- II A.

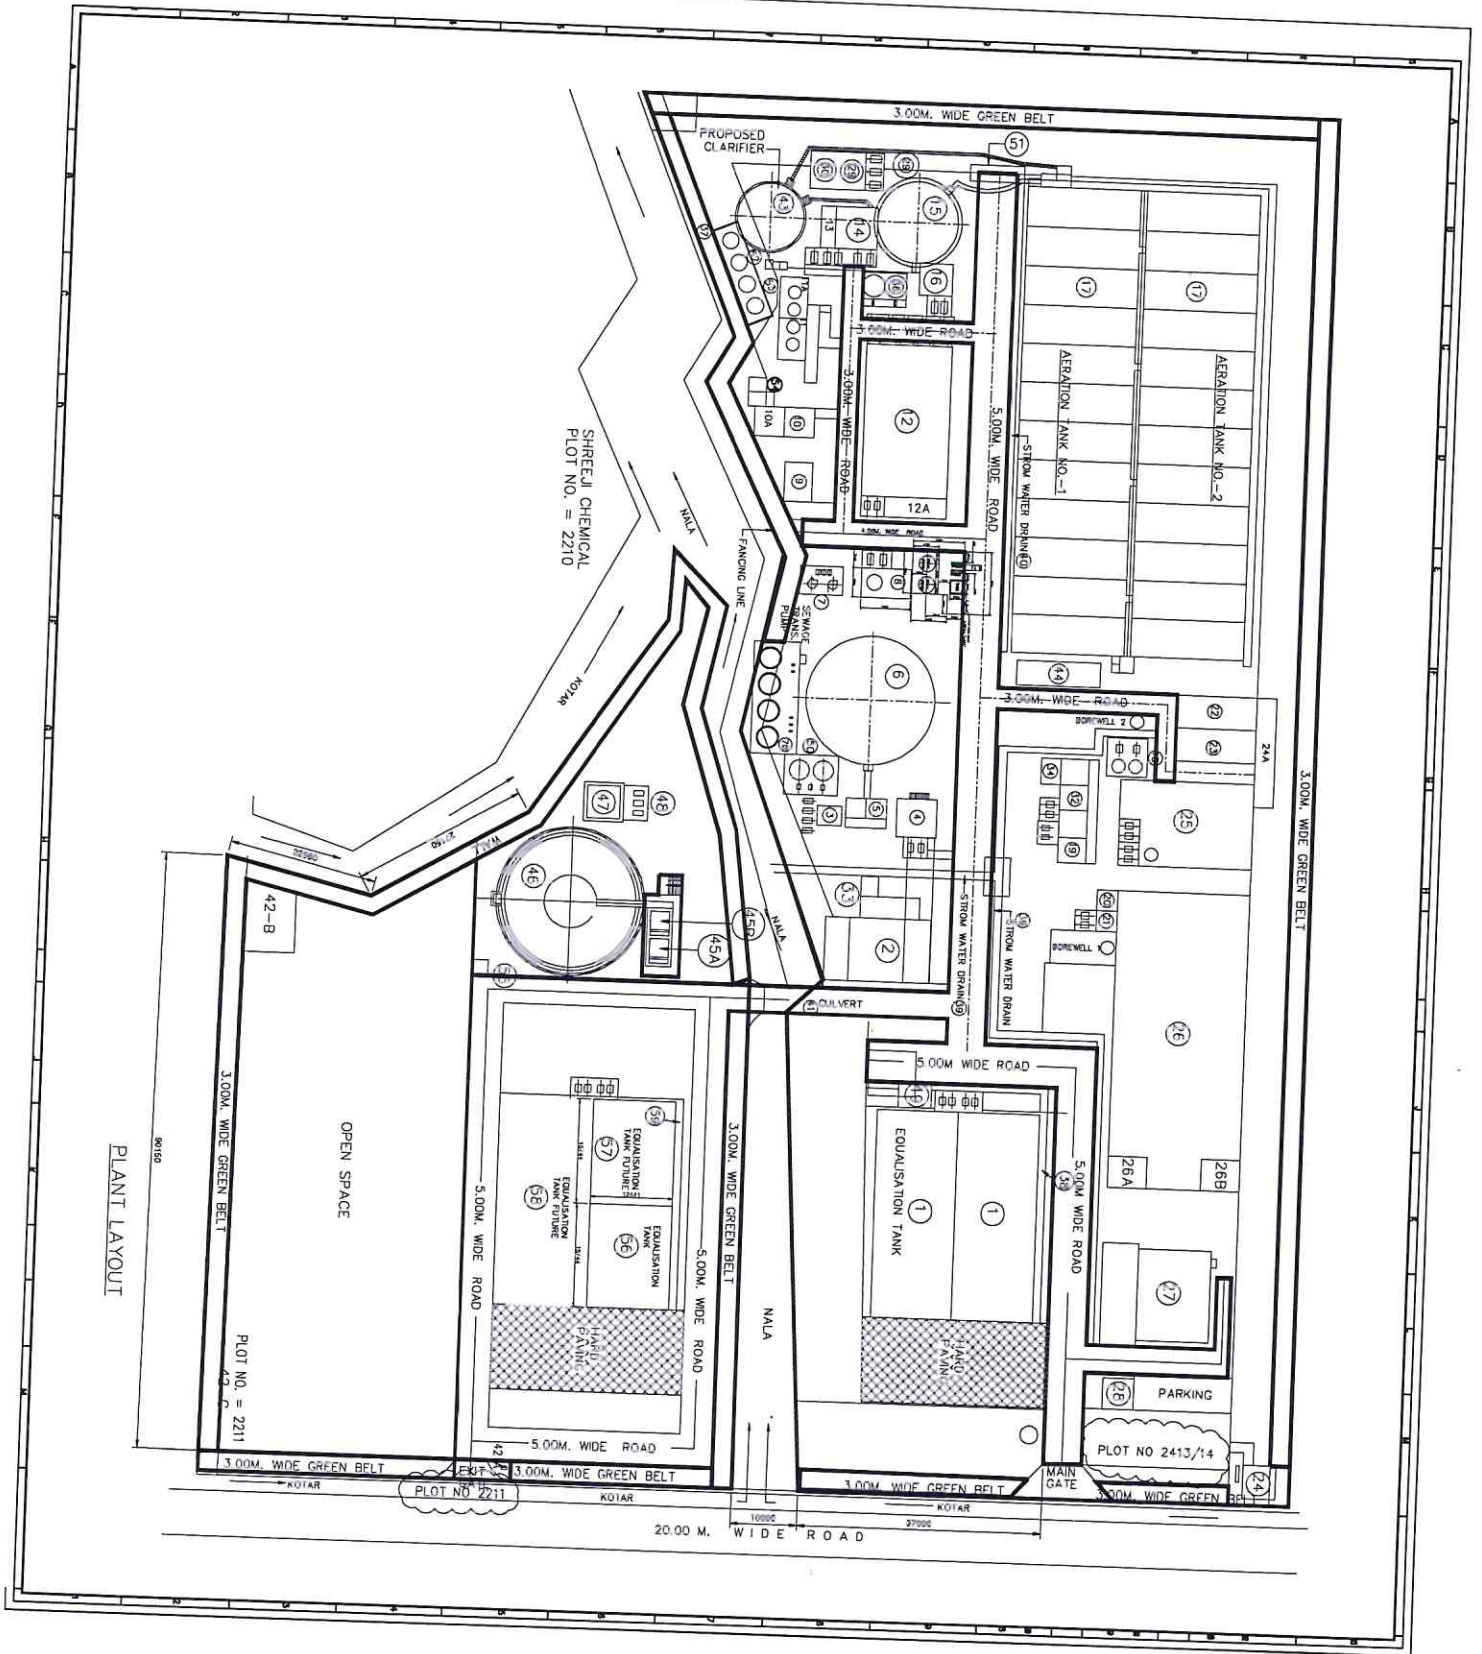

Actual power supply shall be released only after furnishing of No Objection Certificate (Not Site Clearance) from Gujarat Pollution Control Board GANDHINAGAR to our field office under intimation to this office, failing which the minimum bill shall commence after expiry of two months from the of issue of this letter, if you fail to avail this power within two months period from the date of this letter, you will be billed for your total contract demand inclusive of this additional load for monthly minimum charges after expiry of two months period from the date of issue of this letter as per provision of tariff as imposed from time to time for your total contract demand of 600 KVA which is inclusive of addl demand of 125 KVA.

Yours faithfully,

ADDL. CHIEF ENGINEER (O&M)

ter beans and several other vegetables have risen too. According to Krishnakant Pawar, deputy secretary of APMC, Vashi, "Climate change happens to be the major factor for loss of production. The extended monsoon has badly hit farmers and destabilized the demand-supply chain." At the wholesale APMC market in Vashi, supplies of onions have halved since September, say traders. The shortage of old onions and delay in harvesting the winter crop has kept prices high. "Mumbai market needs at least 100-125 truckloads of

sale market. During September and November last year, the prices were Rs 25-35 per kg, which jumped to Rs 50-130 per kg this year. To check prices, government stopped exports in September. This saw a slight dip in prices from Rs 50-60 per kg in the wholesale market to Rs 40-50 in October.

to make a month as a returner in one of the HDIL Group companies, according to chargesheet submitted in court by the Enforcement Directorate (ED) in the PMC Bank scam. The ED questioned her about the source of funds for the purchase of a bungalow in Bandra along with flats in Golf Links Building, and bungalows in Allbaug and Vasai.

Man kills his ailing 62-yr-old mother to 'relieve' her of pain

Sandhya Nair
@timesgroup.com

Mumbai: A 30-year-old man allegedly killed his ailing 62-year-old mother to 'relieve' her of pain. The incident took place in the Bhabha Atomic Power Station (BARC) Colony at Tarapur on Sunday. The complainant, accused Jayprakash Dholi's brother, has told the police his younger sibling was mentally unstable

and catarract. He told the police she often complained of pain and he killed her to liberate her. The victim lived along with her 70-year-old husband, a retired Tarapur Atomic Power Station (TAPS) employee and a daughter, who teaches at the NPCIL School in Tarapur. Jayprakash and his elder brother resided in different homes in Dattatraye Nagar in Dolsar. They would visit their mother every Sunday.

According to the complaint, the victim, Chandravati, was preparing breakfast for Jayprakash when he hit her on the head with an iron rod. The accused is single and unemployed. The complainant came to visit his mother after 11 am and saw Jayprakash sitting beside her body. An iron rod was lying near him. Jayprakash told the police his mother was suffering from arthritis, blood pressure, diabetes

Gift of life: City set for record, 79 transplants in one year

TIMES NEWS NETWORK

Mumbai: The city witnessed 14 life-saving transplants in the last one week thanks to four families who donated the organs of their loved ones. As the year ends, the city is set to witness a heartening record of 79 organ donations, the highest ever since cadaver donation programme started in 1997. Over 200 organ failure patients could undergo transplants owing to the cadaver donations.

The Zonal Transplant Coordination Committee data shows that the number of donations increased by 65% in 2019 when compared with 2018 (48). The number of donated organs too rose by 60% as compared to the previous year. This year also witnessed more bone donations and the first pancreas transplant in the city. Overall, 121 kidneys, 68 livers, 21 hearts, 10 lungs and one pancreas were donated. "The programme has seen unprecedented success this year, but the challenge now would be to sustain the momentum," said Dr S Mathur, president of
